

INSPIRATION FOR BARADARI

BARADARI

This traditional Indian pavilion or miniature palace, often the center piece of mughal water gardens, exemplifies a tour de force of artistic expression. The *Baradari* can combine the artistry of stone and wood carving, pietra dura, semi-precious stone, bone, mirror and metal inlay, hand forging and repousse. Stephanie Odegard has developed these ancient disciplines into inspired contemporary applications. Customize your own palace environment replete with an Odegard carpet.

“The possibilities are endless”
